PROFESSIONAL SUMMARY

Full Stack Engineer with 1+ year of experience building B2B marketplace platforms, supplier-buyer listing portals, lead inquiry systems, and job portals using Java, Spring Boot, React.js, Next.js, and Node.js. Shipped 5+ live client projects covering product catalogs, inquiry workflows, admin dashboards, Razorpay payments, and JWT/RBAC authentication with technical SEO built in.

TECHNICAL SKILLS

Languages: Java, JavaScript (ES6+), TypeScript, SQL, HTML5, CSS3

Frontend: React.js, Next.js (SSR/SSG), Tailwind CSS, Responsive Web Design

Backend: Spring Boot, Spring MVC, Spring Security, Hibernate/JPA, Node.js, Express.js, REST APIs

Databases: MySQL, PostgreSQL (Supabase), MongoDB, Query Optimization, Schema Design

Auth & DevOps: JWT, OAuth 2.0, RBAC, Git, Docker (basics), VPS Deployment, Linux, CI/CD (basics)

Other: Razorpay Integration, Technical SEO (SSR, sitemaps, meta tags), Lead Management Systems

PROFESSIONAL EXPERIENCE

Ultimate iTech Pvt. Ltd.

June 2025 – Present

Full Stack Engineer | Delhi, India

- Architected B2B marketplace modules — supplier onboarding, product catalog listings, and buyer lead inquiry workflows — using Java, Spring Boot, and React.js; delivered 15+ RESTful APIs with JWT authentication and RBAC, reducing unauthorized access to zero.
- Built responsive admin dashboards for real-time lead tracking and catalog CRUD; optimized MySQL/PostgreSQL schemas with indexed queries, cutting average API response time by 40% and improving ops team efficiency by 30%.
- Integrated Razorpay payment gateway for subscription flows; engineered SSR meta tags and dynamic XML sitemaps for SEO; managed VPS production deployments via rolling releases with zero downtime.
- Delivered features across Agile/Scrum sprints — sprint planning, code reviews, daily standups — consistently on schedule.

Prishubh EdTech Pvt. Ltd.

May 2024 – August 2024

Assistant IT Intern | Remote

- Published 7+ responsive web pages and raised on-page SEO scores for 3 client websites by restructuring meta tags, reducing load times, and enforcing semantic HTML standards.

PROJECTS

IndianTradeMart — B2B Trade Marketplace | indiantrademart.com | React.js, Node.js, Express.js, PostgreSQL | 2025

- Built a production-grade B2B marketplace with 20,000+ registered vendors, 5,000+ buyers, and 10,000+ active product listings across 10+ verticals — featuring supplier onboarding, catalog management, and real-time buyer inquiry routing with lead status tracking (new → contacted → converted).
- Implemented multi-attribute product search (category, location, price, rating), JWT + RBAC for buyer/seller/admin roles, and composite-indexed PostgreSQL queries handling high-concurrency traffic with 35% reduced search latency.
- Structured dynamic XML sitemaps and SSR meta tags for full SEO crawlability of 10,000+ listing pages; deployed on VPS with zero-downtime rolling releases.

SpectraPackMachines — B2B Industrial Listing Platform | spectrapackmachines.com | React.js, Node.js, Express.js, PostgreSQL | 2025

- Delivered a B2B machinery listing and lead generation platform with hierarchical product catalog (category → subcategory → machine), per-listing inquiry submission, and admin lead management panel with status tracking.
- Applied SEO-optimized routing, auto-generated XML sitemaps on catalog updates, and JWT-secured endpoints for admin access.
- Engineered responsive product detail pages with specification tables and inquiry CTAs, improving buyer engagement and lead conversion rate for the client.

HHH-Jobs — Location-Based Job Portal | hhh-jobs.com | React.js, Node.js, Express.js, PostgreSQL | 2025

- Built a dual-role (employer/candidate) job portal with 4,000+ registered working professionals, featuring job posting, multi-attribute search (city, role, industry, experience level), and application submission workflow; indexed PostgreSQL schema for fast concurrent queries.
- Integrated live job feed from international companies and big tech firms via external API, auto-updating listings in real time so candidates always see current openings across India and global markets.

- Secured all endpoints with JWT + role-based middleware; designed employer dashboard for managing postings and reviewing applicants, and candidate profile page with application history tracking.

AaoCollege — College Discovery Platform | aaocollege.com | React.js, Node.js, Supabase (PostgreSQL) | 2025

- Launched a college discovery platform with multi-attribute filtering across 500+ listings (state, stream, fees, entrance exams), AI chatbot via LLM APIs, and SEO-enhanced URL routing with structured metadata per college page.
- Designed a normalized PostgreSQL schema supporting complex multi-filter queries with minimal latency; built an admin panel for college data management and bulk content updates.
- Integrated an AI-powered chatbot using LLM APIs to handle real-time student queries on admissions, eligibility, and course details, reducing manual support load for the client.

VaidikUtsav — Event Registration & Payments | vaidikutsav.com | Next.js, Node.js, Supabase, Razorpay | 2025

- Full-stack event platform with Next.js SSR, Razorpay payment processing (webhook-verified), and JWT-secured REST APIs handling event registration, payment confirmation, and user enrollment flows.
- Built a real-time admin dashboard for participant tracking, registration status management, and attendee data export for event organizers.
- Implemented server-side rendering for all event pages with structured metadata, improving SEO visibility and organic discoverability of event listings.

EDUCATION

Mangalmay Institute of Engineering and Technology

September 2021 – August 2025

B.Tech — Computer Science and Engineering | Greater Noida, Uttar Pradesh
