Education

Manglmay Institute of Engineering and Technology

Bachelor of Technology in Computer Science and Engineering

Sep 2022 – Aug 2026

Greater Noida, Uttar Pradesh

Relevant Coursework

- Data Structures
- SDLC
- Artificial Intelligence
- Operating Systems
- Agile Methodologies
- DBMS
- OOPs
- Computer Networks

Experience

Bharat Intern

May 2025 – June 2025

Web Development Intern

Remote

- Developed responsive web pages using HTML, CSS, and JavaScript.
- Collaborated with team members to create dynamic front-end modules.
- Improved website UI/UX for better user engagement.

Projects

Virasat Varanasi Style (Live Demo) | *TypeScript, React, Node.js, Supabase, Tailwind CSS, Vite*

Mar 2026

- Built a premium ethnicwear e-commerce platform for Banarasi and apparel brands with product catalog, cart, and order management system.
- Implemented product type selection (saree, kurti, lehenga, blouse, dupatta) with fabric, weave, and occasion-based filters for personalized shopping.
- Integrated admin panel, delivery partner management, and live order tracking for end-to-end order fulfillment.

Amazon Clone (GitHub Preview) | *ReactJS, Node.js, MongoDB, Express.js, Tailwind CSS*

2024

- Developed a full-stack Amazon-inspired e-commerce platform with product listing, search, cart, and order management.
- Implemented secure JWT-based user authentication, protected routes, and payment gateway integration.
- Built RESTful APIs with Express.js and used MongoDB for dynamic product and order data storage.

BookMyMovies (GitHub Preview) | *Java, MySQL, JDBC*

2024

- Implemented a movie ticket booking system with real-time seat availability tracking, concurrent seat selection logic, and ACID-compliant transaction handling via JDBC and MySQL.
- Designed normalized relational schema for movies, shows, seats, and bookings ensuring data integrity under concurrent access.
- Handled edge cases like double-booking prevention using database-level locking and rollback mechanisms.

Technical Skills

Frontend: ReactJS, Tailwind CSS, HTML5, CSS3, JavaScript, Bootstrap.

Backend: Node.js, Express.js, Spring Boot (basics).

Databases: MySQL, MongoDB.

Tools: Git, GitHub, Postman, VS Code, JWT.

Cloud/Deployment: Vercel, GitHub Pages.

Methodologies: Agile, SDLC.

Certifications

- Java Full Stack certificate from CodeForSuccess.
- Java DSA Certificate from Apna College.
- SQL Certificate from HackerRank.
